SUMMARY

Highly dynamic and detail-oriented Software Quality Analyst with 4 years of experience in software testing and quality assurance. Proven ability to reduce defect leakage by 15% and boost sprint completion rates by 20% using automation tools, Agile methodologies, and testing frameworks. Proficient in JIRA, Selenium, and POSTMAN, excelling in test planning, execution, and cross-functional collaboration to deliver high-quality software solutions.

TECHNICAL SKILLS

- **Programming Languages** : Java
- **Test Management Tools** : JIRA, qTest
- **Test Automation** : Selenium Webdriver, Manual testing, API manual testing using POSTMAN and Bruno
- **Database** : Oracle DB2 (Sql).
- **Methodologies** : Agile, Software Development Life Cycle (SDLC), STLC.
- **Domain Expertise** : IBM Sterling Order Management System, Call Order Management System, Store Order Management System, Product Information Management (PIM), Mobile Application Testing, Blue Yonder, web, Mweb.
- **Testing** : Manual, automation, Functional, UI/UX testing, compatibility testing, Regression, Integration, System Integration Testing (SIT), API Testing with tools like postman, End-to-End Testing, performance and security testing, Test planning, Test execution, Design and Execute, Test Specification Creation, Defect Lifecycle Management, software QA methodologies, tools and processes, Hands-on experience with both white box and black box testing, GIT.
- **Other** : MS Excel, MS Word, MS PowerPoint.

WORK EXPERIENCE

Software Quality Analyst

Infosys Limited, Trivandrum

February 2025 – Present

- Expertise in Retail Supply Chain: Proficient in Manual testing, Functional, and API testing (Postman) across OMS, WCS, Blue-Yonder, Capacity Adjustment, and Mobile applications.
- Test Automation : Developed and maintained robust automated test suites using Selenium WebDriver and TestNG, reducing manual effort by 25% and accelerating release cycles. Built and maintained the Selenium TestNG unified framework, including script preparation and maintenance for regression testing.
- Comprehensive Testing: Conducted Regression, GUI, performance, and functional testing in QA, UAT, and PROD environments for mobile applications. Coordinated integration for OMS, Blue Yonder, WCS, MWEB, SOM, COM, and Ship assisting tools.
- Stakeholder Collaboration & Process Improvement: Collaborated with stakeholders to enhance testing and development processes. Responsible for developing test plans, designs, and execution.
- Agile & Waterfall Experience: Experienced with best practices in both Waterfall and Agile methodologies.
- Order Integration: Strengthened order integration processes with SAP Hybris and IBM Sterling Order Management Systems.
- Strong Skills: Excellent time-management, problem-solving, and analytical skills.

Software Quality Engineer

February 2022 – February 2025

INFOSYS LIMITED, TRIVANDRUM

- Worked as a manual tester performed Regression, functional and API testing in different environment like QA, UAT & PROD in mobile application. And effectively coordinated for integration of OMS, Blue Yonder, WCS, MWEB, SOM, COM, Ship assisting tool.
 - Involved in entire software testing life cycle from requirement gathering, test planning, test scripting, test execution, Defect reporting, status reporting, test completion report and conducting defect triage for the follow up on existing open defects/ bugs
 - Involved in effective communicate with stakeholders at all levels of testing process.
 - Implemented data-driven and keyword-driven frameworks within Selenium TestNG automation to enhance test reusability, improve test coverage, and streamline regression testing across multiple product versions.
 - Expert knowledge in testing techniques and methodologies
 - Designed and executed over 500 test cases for TSC's Mobile Application, improving test coverage by 30%.
 - Optimized defect reporting and tracking using JIRA, reducing resolution time by 25%.
 - Validated over 200 API endpoints using POSTMAN, identifying 3 critical vulnerabilities related to data transmission, which were resolved preventing potential data breaches and system failures.
 - Delivered accurate regression and integration suite execution, contributing to zero major bugs in production.
 - Improved database validation efficiency by 20% through the use of advanced SQL queries.
-

EDUCATION

Bachelor of Engineering in Mechanical Engineering

2016– 2020

HKBK College of engineering, Bangalore, Visvesvaraya Technological University

Percentage Acquired: 65%

CERTIFICATIONS

- Infosys Certified Java Programmer
 - Infosys Global Agile Developer
 - Infosys Certified DevOps Professional
 - Infosys Certified Selenium Automation Tester
 - Selenium -Java course completed certified byTrainon.in
 - Playwright- Typescript course completed by Udemy.
-
